Done	In progress	To come

Shipped: 12 of 23 items on this list (52%)

Done (12)

- Scorecard tabs for weekly / monthly / quarterly / annual
- Team switcher (multi-team)
- Speaking order editor + scorecard/rocks order follows it
- To-do default due date +7 days; due-soon milestones on To-Dos
- Trust bugs: double-submit, status dropdown clip, milestone date edit, status comment visibility
- Rock / quarter / milestone date defaults (flexible quarter, empty milestone due)
- Issue short-term / long-term tabs + move between them
- Comments on issues and rocks (links auto-detected)
- Headlines: mark discussed + selective archive at meeting end
- Vote credits display (clear remaining votes)
- Archive for to-dos, issues, and headlines (Active / Archived)
- Rocks redesign (create/edit modal, L10 same row as standalone)

In progress (2)

- Archive for rocks (tabs exist; no way to archive a rock yet)
- Session D cleanup (privacy review still open on this branch)

To come (9)

- Issue / employee privacy across teams
- Access ops: allowlist HPB emails + team membership for demo users
- Custom meeting agendas + pick template at start (largest item)
- Google Tasks two-way (complete in Tasks completes in EOS)
- Rich text editor on descriptions (comments already linkify URLs)
- Headline category: General / FYI
- Integrations moved under Settings / profile
- Calculated scorecard metrics + share-up (confirm with Joe)
- Warehouse-fed scorecard trends (blocked on client BigQuery conventions)

Sessions A–C (trust bugs, multi-team/scorecard, meeting hygiene) are complete. Session D is wrapping archive + privacy. Custom agendas are the largest remaining build.
